String Programs By Ramana sir

Q1: write a java program to reverse a string?

Q2: write a java program to arrange a character in a string?

Input:" ram#123" output:"123#ram"

Q3: write a java program to count words in a string?

Q4: write a java program to find given string is palindrome or not?

Q5: write a java program to convert string to char array without using in build function?

Q6: write a java program to print sum of number present in a string?

Input:" ash123" output: 6

Q7: write a java program to find index value "ash123" where key='s'?

Q8: input: "AssmnAN" output: A=2, A=3, m=1, n=1, N=1?

Q9: input:" Ramana" output:" R@m@n@"?

Q10: write a java program to count vowel characters in a string?

Q11: write a java program to print vowel character in a string?

Q12: write a java program to maximum occurrence character and its count in a string?

Input: ramana output: a=3?

Q13: write a java program to minimum occurrence character and its count in a string?

Input: ramana output: r=1?

Q14: input: helloworld output: he121w2r3d?

Q15: input: RaMana output: rAmANA?

Q16: write a java program for initcap of string input:

india that is bharat output: India That Is Bharat

Q17: input: “java is very easy” output: avaj si yrev ysay”

Q18: write a java program to print palindrome words in a string?

Input: eye level car boy? output: eye, level

Q19: write a java program to change upper case to lower case?

Q20: input: Ramana

Output: R

Ra

Ram

Rama

Raman

Ramana

Q21: input: “easy very is java” output: “java is very easy”

Q22: write a java program to print words in a given string, input: “Java Is Very Easy”

Output: Java

Is

Very

Easy

Q23: input: “ccaabbd” output: “aabbccd” (sort given string)?

Q24: write a java program to print substring of a string

Input: ”Malayalam”

mal	ala	lay	aya	yal	ala
mala	alay	laya	ayal	yala	alam
Malay	alaya	layal	ayala	yalam	
Malaya	alayal	layala	ayalam		
Malayal	alayala	lalayam			
malayala	alayalam				
malayalam					

Q25: input: “ramana” output: rmn?

Q26: write a java program to find missing alphabet in a string ?

Input: “abc” output:”d e f g h I j k l…….”

Q27: input:”3124” output:3124 without using parseInt?

Q28: String = I love python Input: - “java” REPLACE WITH “python” Output: - I love java?

Q29: Write a java program to check two strings are Panagram or not?

Q30: Write a java program to check two strings are Anagram or not?

Q31: write a java program to print missing vowels in a string?

Q32: write a java program to find occurrence of a character in a string using replace method?

Q33: write a java program to split given array and store he result into string array without using split ()?

Q34: create one string array, size=5, add 5 elements and print it in reverse order?

Q35: write all permutation of string “abc” output: “abc”, “acb”, “bac”, “bca”, “cba”, “cab”?

Q36: write a java program to find palindrome substring in a program?

Input: “Malayalam”

Output: ala, aya, layal, Malayalam

Q37: input: “happy happy birthday” output: “happy birthday”?

Q38: write a java program smallest substring palindrome in a given string?

Q39: write a java program to swap two string variables without using third variable?

Q40: input: “acb243d10” output:213+10=253?

Q41: input: “abc” output:97+98+99=294?

Q42: Write a java program to remove space in given String without using inbuilt function?

Q43: Write a java program to count number of characters available in each word of a given String?

Input:- “java is easy” Output:- java=4 is=2 easy=4

Q44: Write a java program to find the occurrence of character from given String with replace method?

Q45: Remove Extra space in given string

Input:__java__is___very__easy__?

Ouput: “java_is_very_easy”

Q46: Write a java program to check two strings are Anagram or not without replace method?

Q47: input: “ramana” output:”ramn” with indexOf method?

Q48: write a java program to find missing alphabet in a string by using indexOf method?

Q48: input: class key=$ output: cla$$?

Q49:write a java program to remove edge space using trim()?

Input:”__java _is _easy__? Output: “java is easy”?
